## Welcome to Edgecliff Serviced Offices

Our serviced offices complex was established in 1979, in order to provide small businesses, branch offices and professional people with efficient modern office accommodation and services in Sydney, Australia.

The Centre comprises a number of fully furnished private offices and reception areas, conference rooms, secretarial working areas, kitchens etc., with specially selected staff and equipment to suit all your business needs.

The difference from normal commercial leasing is that here you only lease the size of office that you need - the other facilities are shared. We supply and take care of staff, equipment and daily administration. You can concentrate on pursuing your own business, without the daily headaches of office management.

A functional working environment for you, a friendly welcome for your visitors, all at a fraction of the cost of creating and servicing your own complete office facility... come in and see us soon... ring any of our professional staff on 9327 8333 to arrange an inspection.
